

CARE FOR ALL WOMEN.

We provide health and wellness services to all women and their families with a focus on **those in need**.

healthcare services

42,000/23

Nearly 42,000 individuals in 23 counties are served annually by our provider network. Our patients come from vulnerable populations and for many, we are their sole healthcare provider. Services are provided regardless of insurance status or income.

breast and cervical cancer screening program

Through the HealthyWoman, WiseWoman, and the Komen Mammogram Voucher program, we have helped over 9,000 women obtain life-saving cancer screening services.

9,000

A blue icon of a shield with a heart inside, positioned to the right of the number 9,000.

Low-income, underinsured women receive breast and cervical cancer screenings and related diagnostic services through this vital program.

nutrition services

51,000

Over 41,000 students in 264 school districts across our region learn about the benefits of healthy eating habits and active lifestyles through the USDA-funded Power Up program.

In Armstrong, Beaver, Butler, Indiana, and Lawrence counties, over 10,000 families are able to access nutritional food and breastfeeding support through the WIC Supplemental Nutrition Program each month.

community education

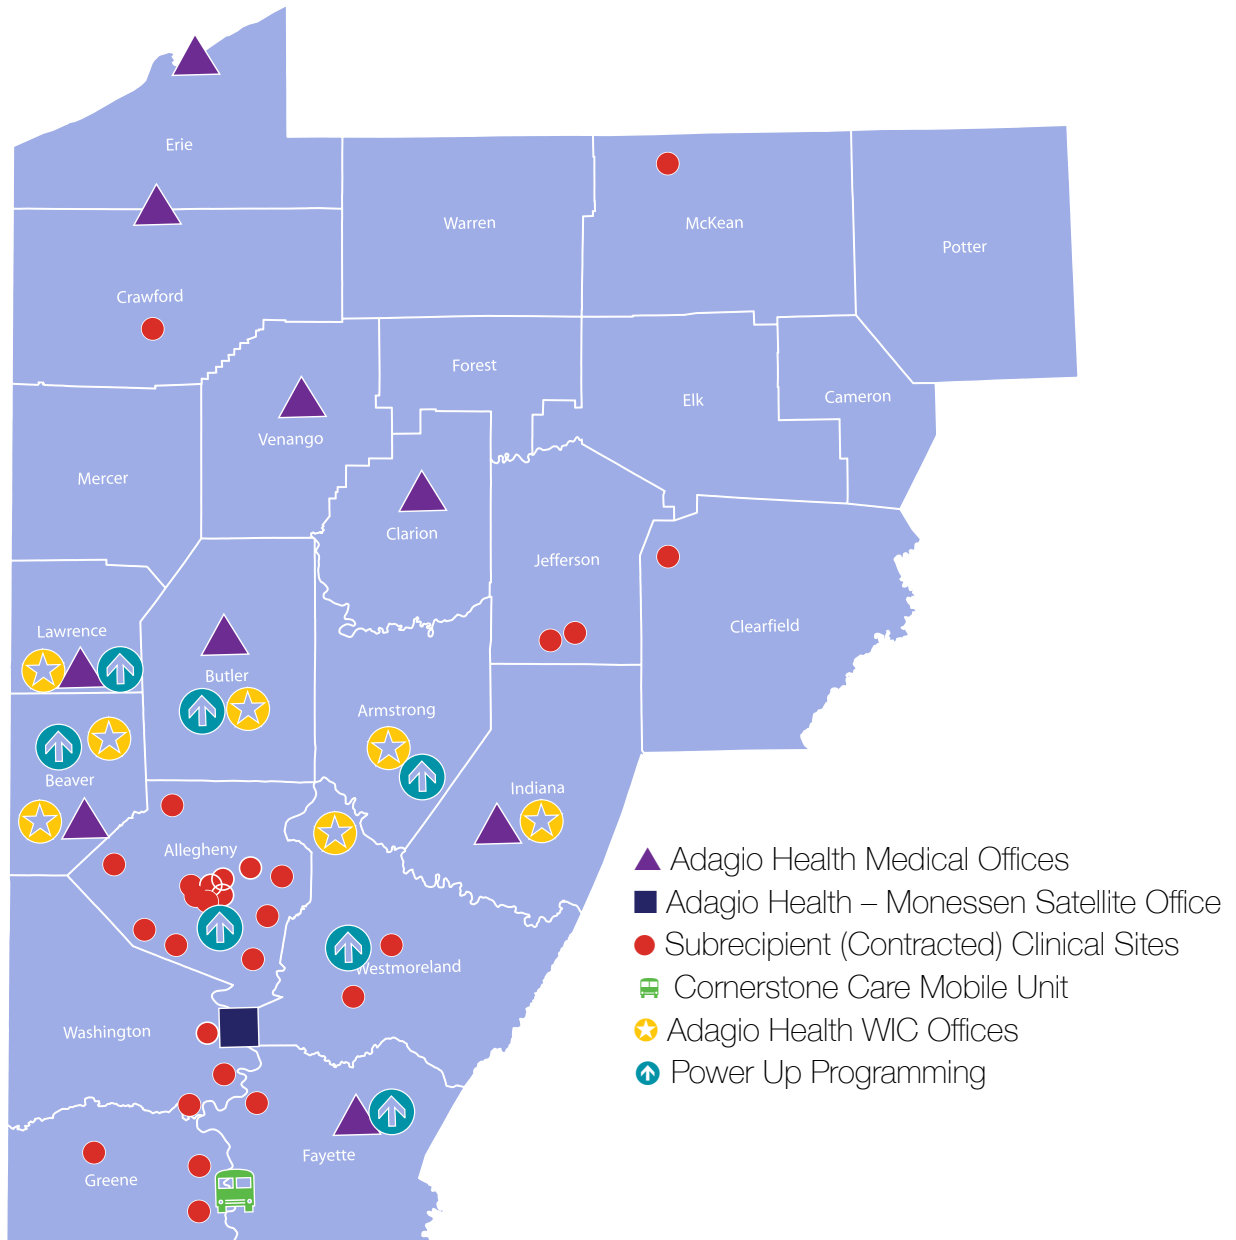

Through programming in schools and community settings, Adagio Health educates and informs over 2,000 youth about life skills, healthy relationships, good decision making and sexual and reproductive health.

2,000

Our service area

Adagio Health helps over 100,000 individuals across Western Pennsylvania live healthier lives. **Contact us: info@adagiohealth.org | www.adagiohealth.org | 1.800.215.7494**
